- LITTLE GREEN APP
- CHAT IS THE NEW SUPER APP

Capgemini

HONEY, I SHRUNK THE APPLICATIONS

Next-generation agile applications, built on the concepts of Microservices, API-first, Cloud-native, and Headless, make up an applications portfolio that is continuously tidied.

Capgemini

WHEN CODE GOES KNOW

Pair programming with an AI assistant can significantly boost coding productivity and quality while steepening your learning curve — if you know what you're doing.

Capgemini

APPS ❤ AI

Systematically augmenting new and existing applications with AI capabilities, making them smarter, more powerful, and — as a result — more valuable.

Capgemini

LITTLE GREEN APP

Engineer applications to be less demanding in terms of resources and energy with superior performance: Get more sustainable, but also better software.

Capgemini

CHAT IS THE NEW SUPER APP

AI-augmented chatting and talking in plain, natural language becomes the new app to rule them all.

Capgemini
