## APPLICATIONS UNLEASHED

## HONEY, I SHRUNK THE APPLICATIONS

Next-generation agile applications, built on the concepts of Microservices, API-first, Cloud-native, and Headless, make up an applications portfolio that is continuously tidied.

/Prompt the future

## APPLICATIONS UNLEASHED

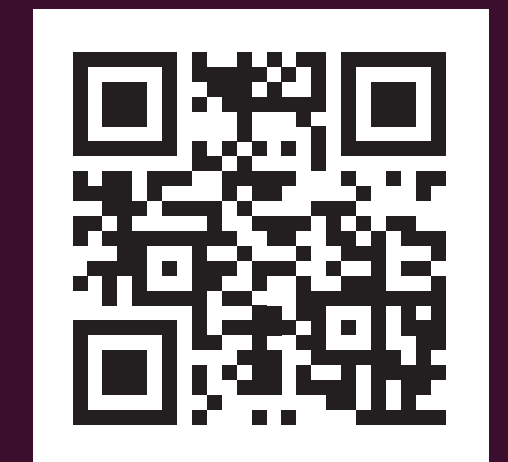

## WHEN CODE GOES KNOW

Pair programming with an AI assistant can significantly boost coding productivity and quality while steepening your learning curve — if you know what you're doing.

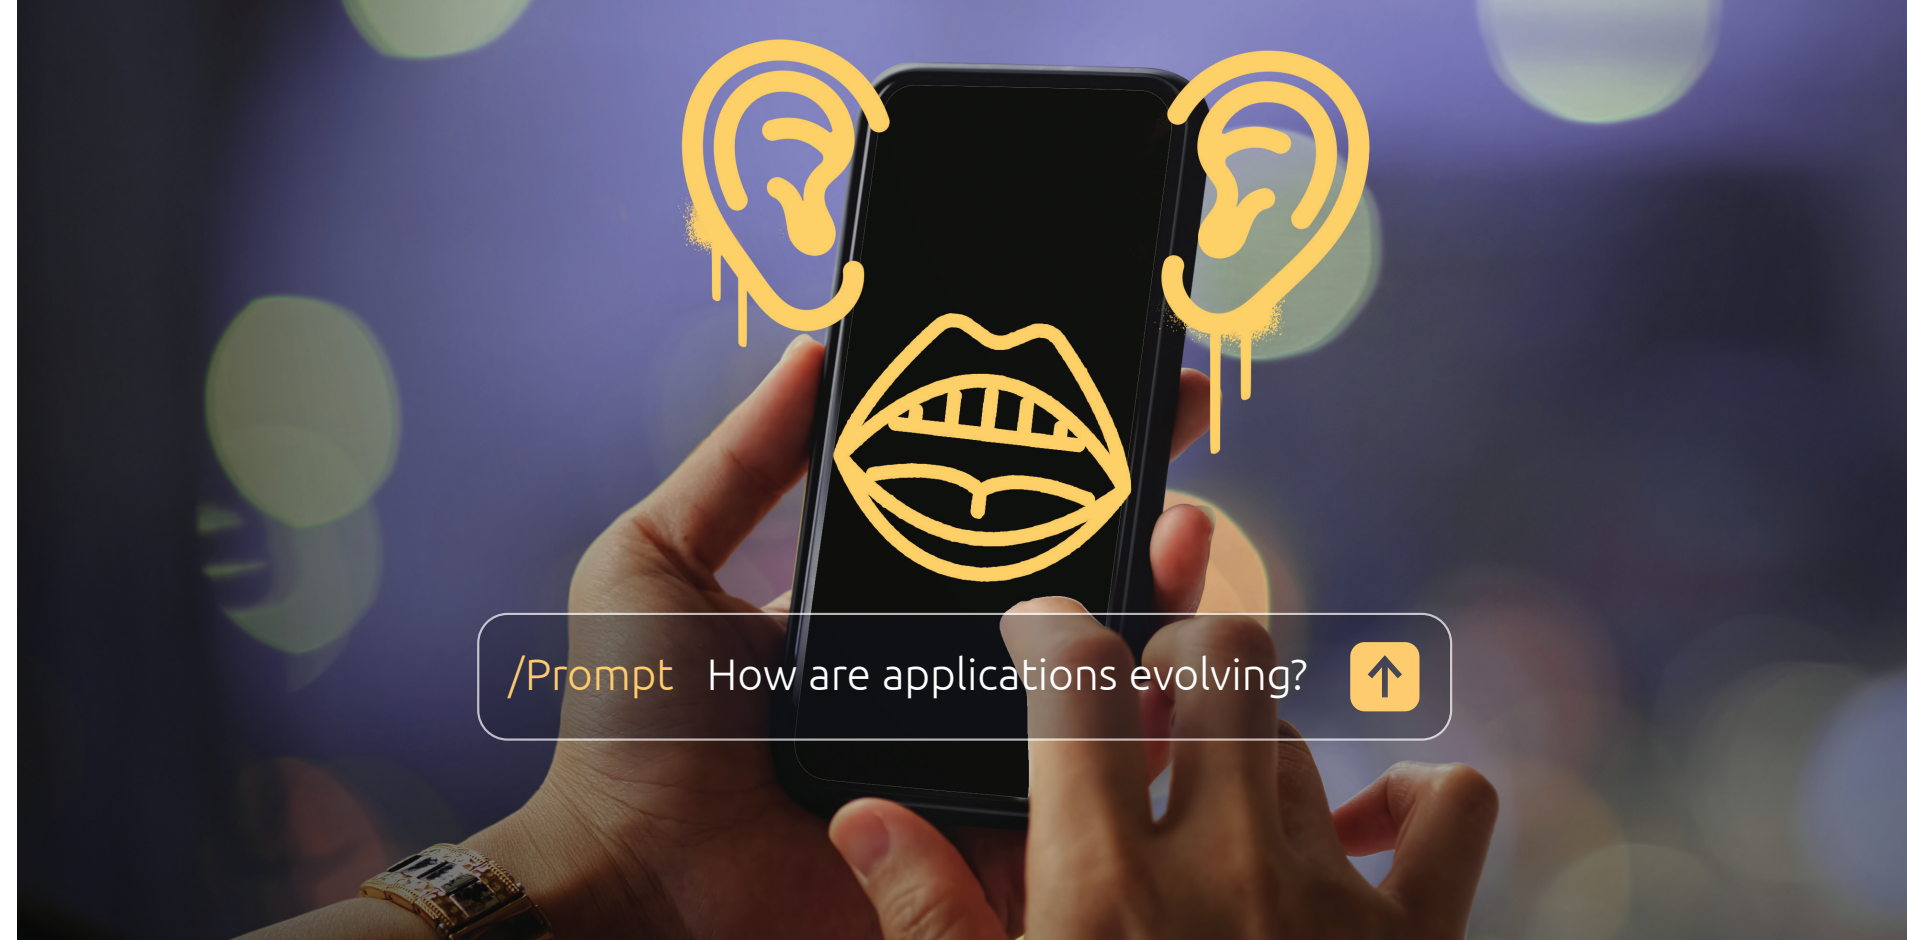

## TECHNO VISION 2024

/Prompt the future

## APPLICATIONS UNLEASHED

## APPS ❤️ AI

Systematically augmenting new and existing applications with AI capabilities, making them smarter, more powerful, and — as a result — more valuable.

# TECHNO VISION 2024

/Prompt the future

## APPLICATIONS UNLEASHED

### LITTLE GREEN APP

Engineer applications to be less demanding in terms of resources and energy with superior performance: Get more sustainable, but also better software.

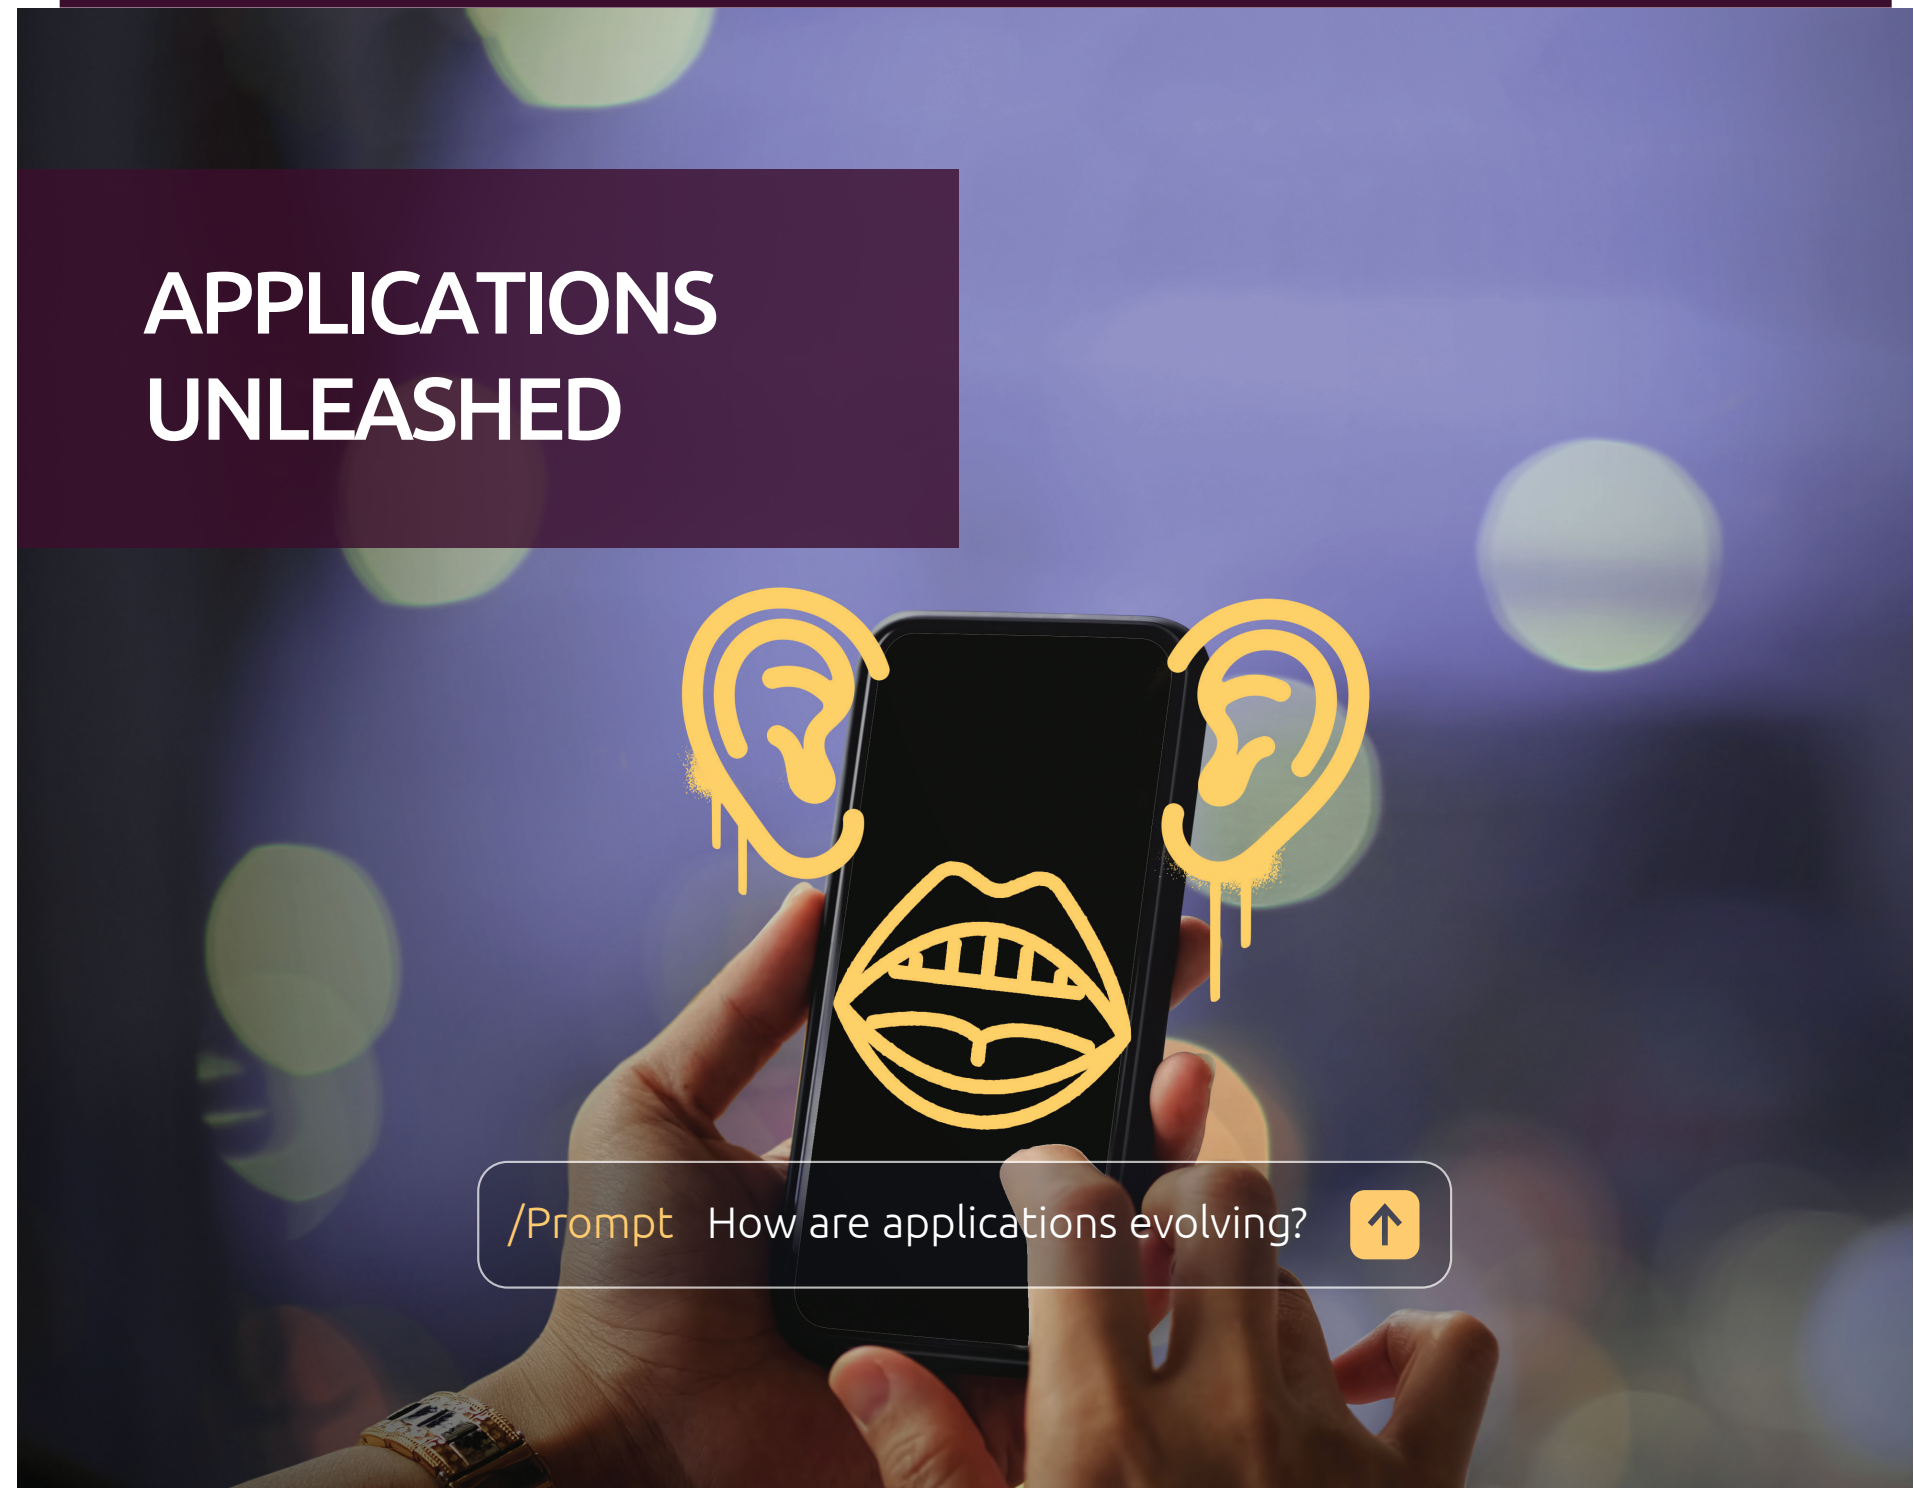

## TECHNO VISION 2024

/Prompt the future

## CHAT IS THE NEW SUPER APP

AI-augmented chatting and talking in plain, natural language becomes the new app to rule them all.
