

WHAT MATTERS TO TODAY'S CONSUMER

2024 consumer behavior tracker for the consumer products and retail industries

Consumer worries around cost of living are still high but have eased slightly

52% of consumers are extremely concerned about their personal finances compared with 61% last year

63% of consumers in our survey are buying private-label or low-cost brands over named brands this year, compared to 65% the previous year

43% of consumers fear their personal finances will worsen in the next 6–9 months, far below the 80% last year

65% expect retailers to alert consumers when brands reduce the weight of a product without reducing the price (a phenomenon known as "shrinkflation")

One in five consumers has already used generative AI in shopping

SHARE OF CONSUMERS WHO AGREE WITH THE STATEMENTS BELOW

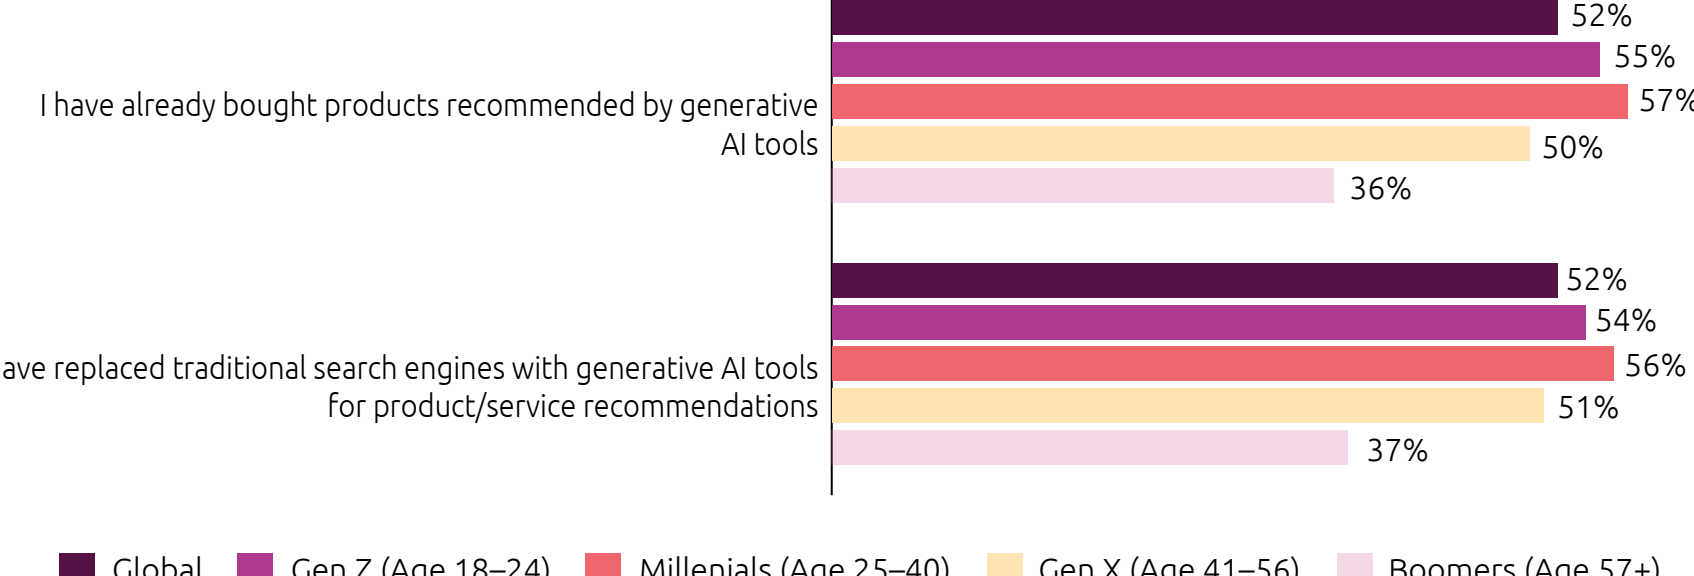

- I am aware of the use of generative AI in shopping experiences, and I have used it already
- I am aware of the use of generative AI in shopping experiences, and I plan to use it in the future
- I am aware of the use of generative AI in shopping experiences, but do not plan to use it myself
- I am neither aware of nor have explored generative AI tools for shopping

Source: Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 11,681 consumers.

Generative AI is not just used by Gen Z

GENERATIVE AI PREFERENCES BY AGE AMONG CONSUMERS, WHO ARE AWARE AND HAVE USED IT FOR SHOPPING

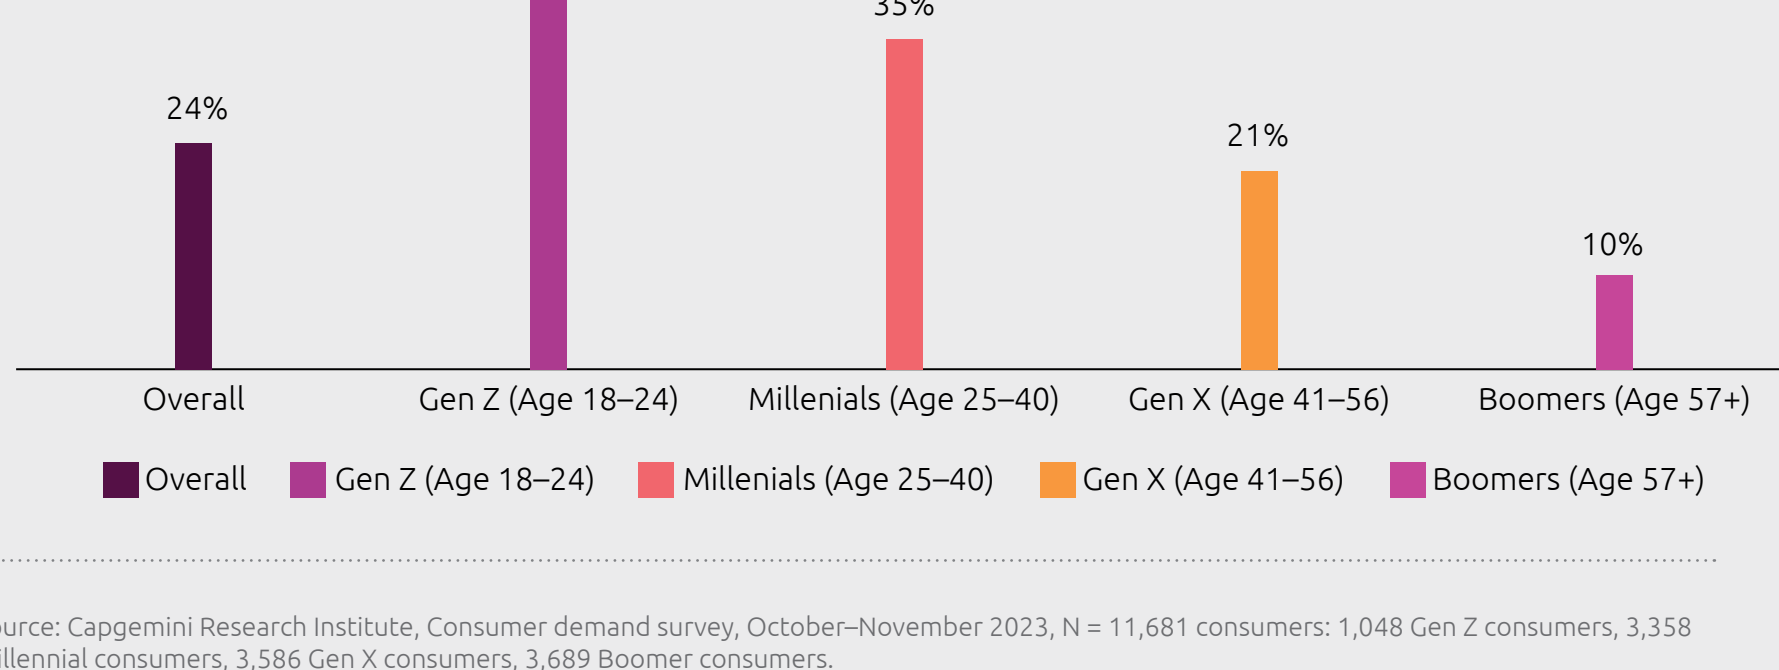

Source: Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 2,299 consumers who are aware of the use of generative AI in shopping experiences and have used it already: 345 Gen Z consumers, 986 Millennial consumers, 635 Gen X consumers, 333 Boomer consumers.

Social commerce continues to grow driven largely by Gen Z

46% of Gen Z consumers have already bought products on a social media platform

SHARE OF CONSUMERS WHO HAVE BOUGHT A NEW PRODUCT/BRAND THROUGH SOCIAL MEDIA, BY AGE GROUP

Source: Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 11,681 consumers: 1,048 Gen Z consumers, 3,358 Millennial consumers, 3,586 Gen X consumers, 3,689 Boomer consumers.

Consumers prefer Instagram and YouTube as purchasing platforms

CONSUMERS' TOP THREE SOCIAL MEDIA PURCHASING PLATFORMS

Source: Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 2,774 consumers who have purchased on social media in the past year, 481 Gen Z consumers, 1,176 Millennial consumers, 766 Gen X consumers, 351 Boomer consumers.

Social media influencers are impacting consumers' product discovery and purchasing processes

33% of consumers had discovered a new product/brand on social media in the preceding six months, up slightly from 32% last November.

20% of consumers have bought products from celebrity and influencer brands in the past year, with Gen Z (45%) showing the highest interest, followed by Millennials (32%)

Consumers are becoming more conscious of their purchasing impact

The majority of consumers still maintain a consistent demand for sustainable products especially Gen Z

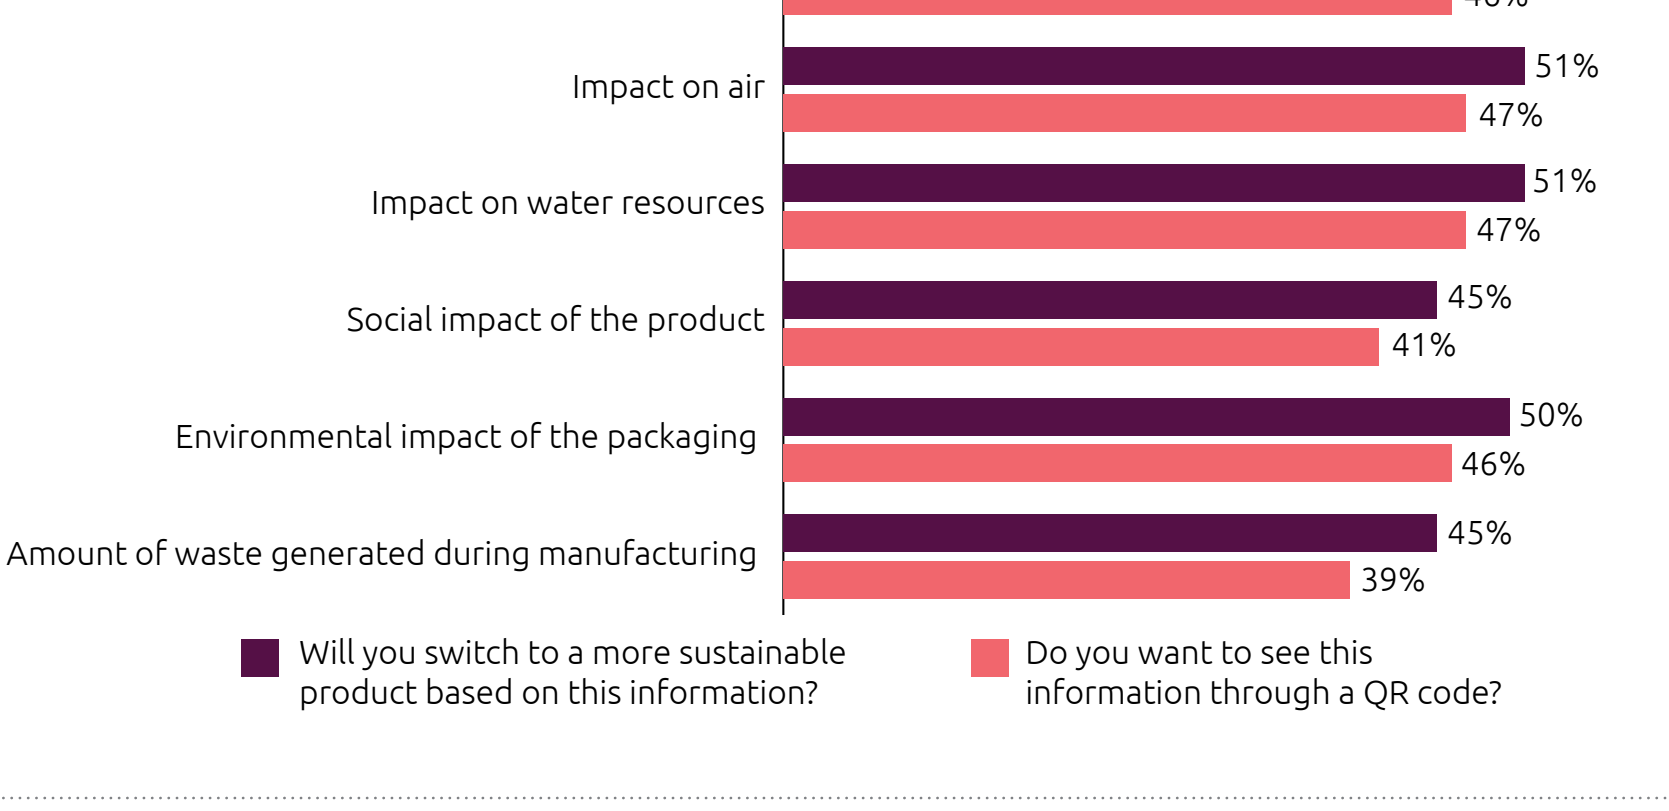

SHARE OF CONSUMERS ACROSS AGE GROUPS WHO BOUGHT PRODUCTS FROM ORGANIZATIONS THAT ARE PERCEIVED AS SUSTAINABLE

Source: Cappgemini Research Institute, Sustainability in Consumer Products and Retail survey, March 2020, N = 7,520 consumers: 849 Gen Z consumers, 2,294 Millennial consumers, 2,182 Gen X consumers, 2,195 Boomer consumers; Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 11,681 consumers: 1,048 Gen Z consumers, 3,358 Millennial consumers, 3,586 Gen X consumers, 3,689 Boomer consumers.

Consumers want product information relating to deforestation and impact on water resources and air quality

KEY PRODUCT ATTRIBUTES, AS CITED BY CONSUMERS

Source: Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 11,681 consumers.

In 2023 both in-store and online shopping have increased

Consumers' interactions with physical stores and online is gradually increasing

% OF CONSUMERS SHOPPING AT PHYSICAL STORES AND ONLINE WITH RETAILERS

Source: Cappgemini Research Institute, Consumer demand survey, October–November 2023, N = 11,681 consumers; Cappgemini Research Institute, What matters to today's consumer, January 2022. Note: The question asked was "Please indicate your frequency of using physical stores when shopping with retailers. Please rate on a scale of 1 to 7, where 1 = very low interaction and 7 = very high interaction."

How brands and retailers can manage and adapt to shifts in consumer behavior

1

Adapt to compete

Driving cost reductions by leveraging technology and rethinking the way brands and retailers operate, using generative AI for operational efficiency and become more consumer-centric

- Brands and retailers use generative AI tools to become more consumer-centric
- Leverage technology to reduce cost for consumers
- Improve operational efficiency with generative AI

2

Unlock channel growth

Identifying new revenue streams and growth opportunities through new initiatives and operating models

- Leverage social as both a feeder channel and a sales channel in its own right
- Consider social commerce as a sales channel in its own right, especially for reaching Gen Z audiences
- People buy from people: Brands and retailers increasingly tap into the power of influencers with specially designed programs for story-selling

3

Lead with purpose

Managing the growing tension between the simultaneous need for affordability and sustainability

- Educate consumers on the sustainability impact of their shopping
- Reduce food waste to help combat the cost-of-living crisis
