

## PROCESS ON THE FLY

**/Prompt** How can technology make production lines fly?

# PROCESS ON THE FLY

- PROCESS IS MINE,  
MINE, MINE
- SILO BUSTERS
- MICRO PROCESS MAGIC
- CAN'T TOUCH THIS
- AUTONOMOUS ENTERPRISE

# PROCESS IS MINE, MINE, MINE

Using Digital Twins of  
business processes for  
continuous innovation,  
making it the envy of the  
entire flock.

# SILO BUSTERS

Busting corporate silos by adding flexible process layers on top of them, rather than breaking or rebuilding established structures.

# CAN'T TOUCH THIS

A process seamlessly adapting to its environment, delivering optimal performance — all without human intervention on the spot, all remotely managed.

# MICRO PROCESS MAGIC

Miniaturizing processes into micro-sized forms to achieve greater speed, agility, and efficiency — while learning more about daily operations.

# AUTONOMOUS ENTERPRISE

Harnessing AI, the autonomous and unattended 'lights out' enterprise continually optimizes itself, bringing harmony and blending capabilities between humans and technology.
