Laurent Perea appointed Managing Director of Capgemini Engineering in Spain

Madrid, April 13, 2023 – Capgemini today announced the appointment of Laurent Perea as Managing Director of Capgemini Engineering in Spain. Before his new position, Laurent Perea was Managing Director of Capgemini Invent in Spain since 2018.

Part of the Capgemini Group, Capgemini Engineering is the world leader in engineering and R&D services. It combines broad industry knowledge and cutting-edge technologies in digital and software to support the convergence of the physical and digital worlds. Laurent Perea will lead Capgemini Engineering in Spain which has more than 4,000 professionals.

Commenting on the new appointment, William Rozé, CEO of Capgemini Engineering and member of the Group Executive Board said, *"I am pleased to welcome Laurent to his new role to pursue our development and growth in Spain. As part of the Capgemini Group, a trusted business and technology transformation partner for organizations around the world, Capgemini Engineering has a solid market position in the region, with leading edge capabilities and technology expertise in key engineering domains. I am confident that Laurent, together with our talented Capgemini's teams, will help us continue partnering with clients to co-innovate, envision the future of their activities, and lead the disruptive change. Combined with the power and capabilities of the Capgemini Group, we are best positioned to accompany our clients in their digital transformation challenges and in their journey towards Intelligent Industry¹."*

"Our priority is to help our clients in the region to innovate and take advantage of advanced technologies to re-think the key industrial parts of their business and build a sustainable future. I look forward to further accompanying business leaders in their transformation journey in the move from a world of physical components to a world of intelligence and autonomy, with capabilities in a wide range of engineering expertise in areas such as 5G, connectivity, digital manufacturing, electronics and semiconductors, and artificial intelligence," says Laurent Perea, new Managing Director of Capgemini Engineering in Spain.

Biography:

Laurent Perea, Managing Director of Capgemini Engineering in Spain

Laurent has nearly 20 years of experience in strategy and management consulting within the Capgemini Group. In addition, he has led key programs for global industry leaders on digital transformation, operating model transformation, post-merger integration and competitiveness improvement.

From September 2018 to March 2023, he was Managing Director of Capgemini Invent in Spain, the strategy, innovation, design, and transformation powerhouse of the Capgemini Group.

Laurent holds a Master of Science degree from the *École Nationale des Ponts et Chaussées* (ENPC - Paris, France) and from the Higher Technical School of Industrial Engineers (ETSII - Madrid, Spain).

¹ 'Intelligent Industry' is the new era digital transformation: characterized by a growing convergence of the physical and virtual worlds - product, software, data, and services - across all industries; and fueled by the rapid development of technologies, including cloud, artificial intelligence (AI), internet of things (IoT), edge computing and 5G.
