TechnoVision 2023

LORD OF THE CLOUDS

Cloud adoption moves far beyond the middle-earth realm of cloud migration, now also driven by sustainability, distribution, sovereignty, 'FinOps', and multi-cloud forces – all for that precious, better business flow.

Capgemini 

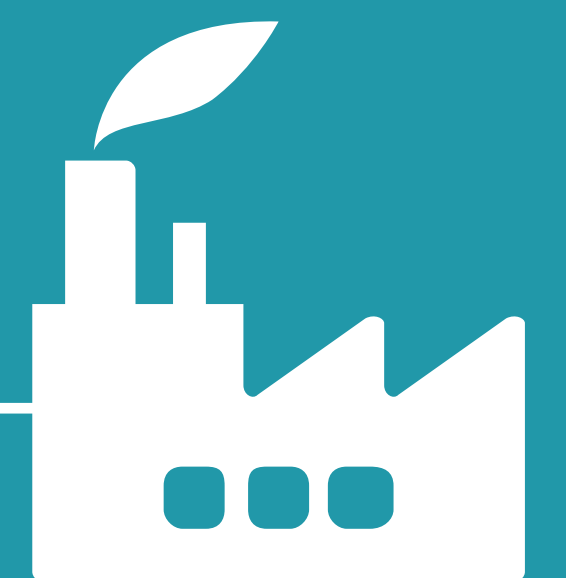

TechnoVision 2023

MY INDUSTRY, MY CLOUD

Industry-specific clouds – focusing on data and solutions for a particular industry, domain or even region – deliver speed, focus, and compliance, while trimming legacy.

Capgemini 

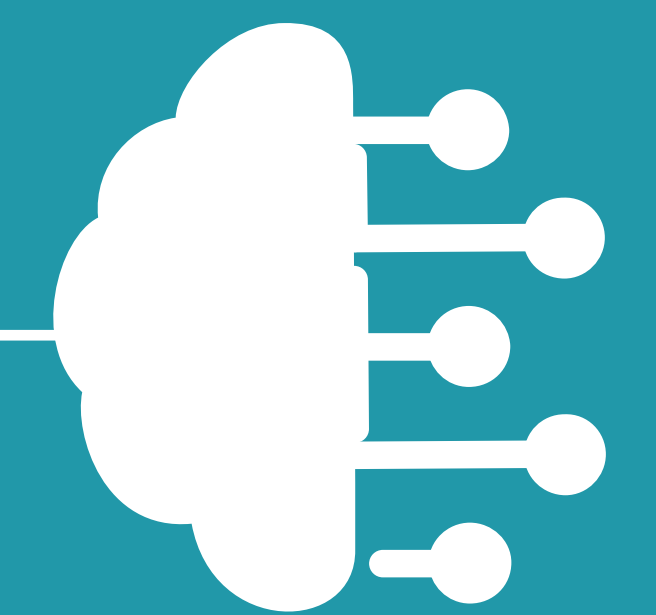

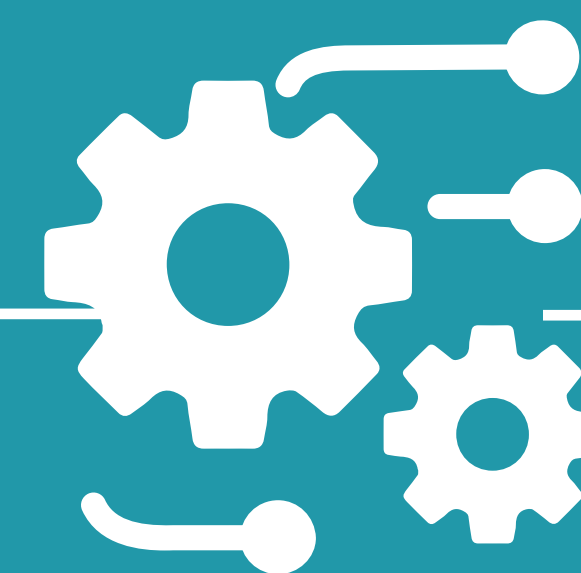

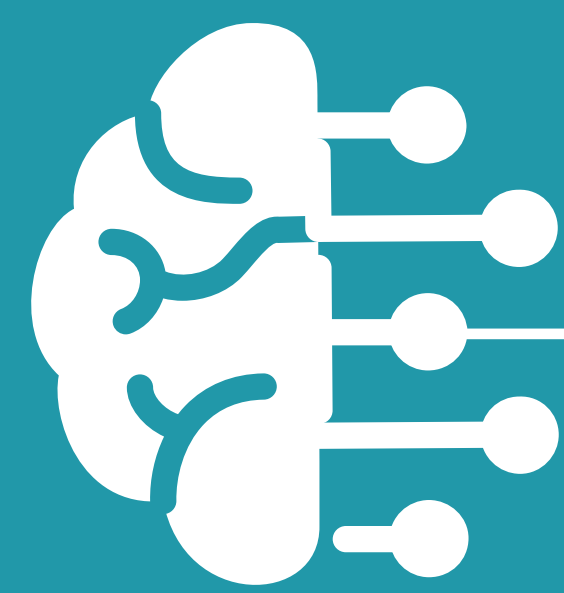

TechnoVision 2023

OPS, AI DID IT AGAIN

AI renders IT operations fluid, proactive, and resilient, improving efficiency, sustainability, and reliability while it learns – on its way to a handsfree, 'NoOps' autonomy.

Capgemini 

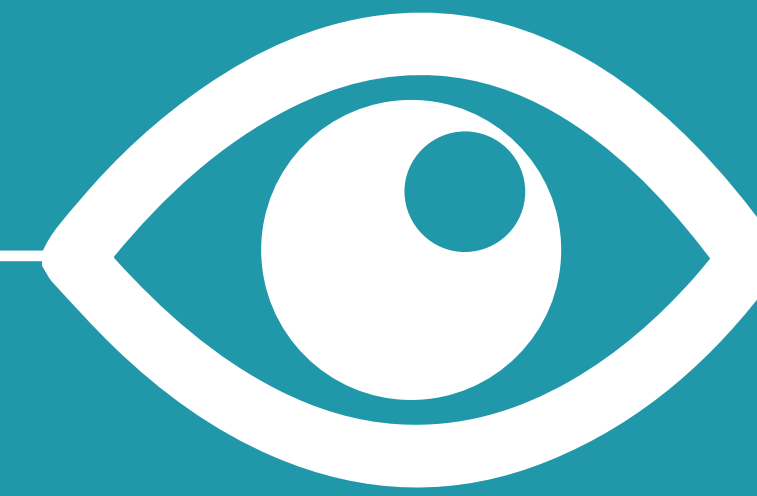

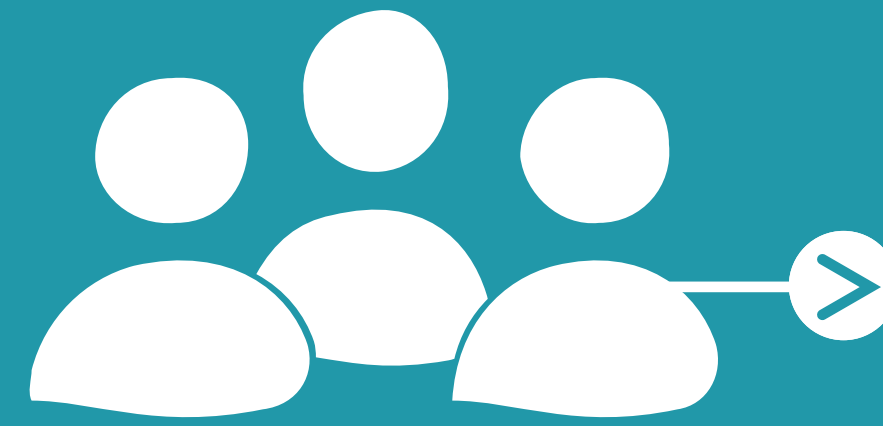

TechnoVision 2023

SIMPLY THE EDGE

Intelligent devices, at the 'edge' of central IT and close to operations and OT, add a powerful dimension to the existing IT infrastructure.

Capgemini 

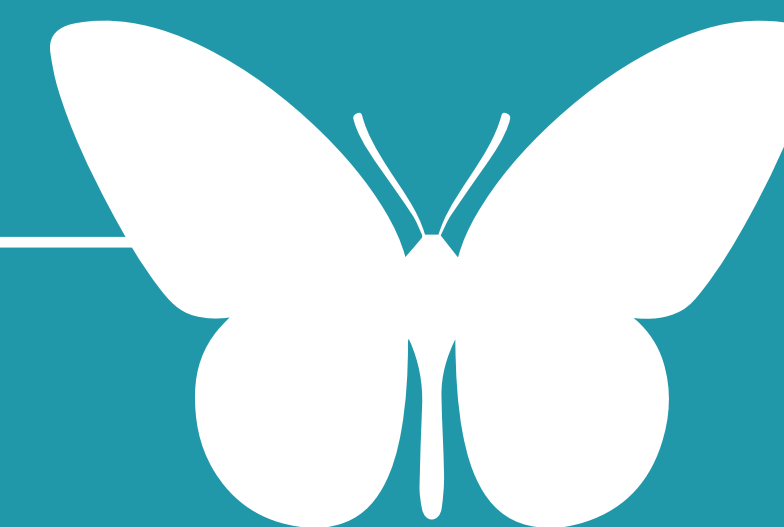

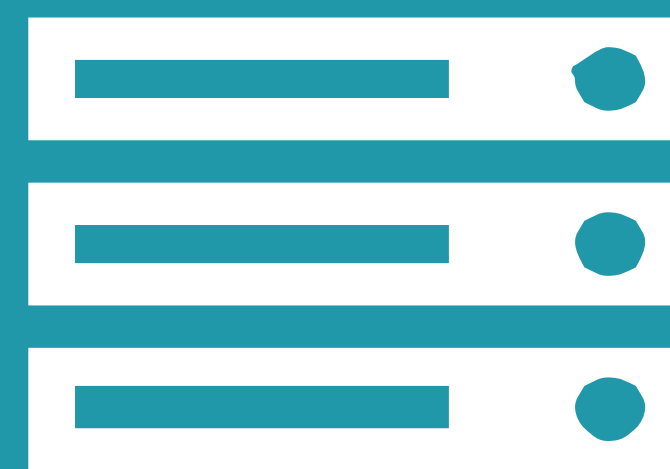

TechnoVision 2023

SILENCE OF THE SERVERS

Building highly automated, self-optimizing IT infrastructure platforms that are so entwined with business operations, they are no longer distinctly noticeable.
