## **Capgemini named a Leader in 2024 Gartner® Magic Quadrant™ for Service Integration and Management Services**

Paris, December 18, 2024 – [Capgemini](#) today announced that it has been acknowledged as a Leader in the [2024 Gartner® Magic Quadrant™ for Service Integration and Management \(SIAM\) Services](#) for its completeness of vision and ability to execute. The Gartner Magic Quadrant evaluated a total of 12 service providers for SIAM services.

*As per Gartner, Leaders perform skillfully. They have a clear vision of the market's direction (digital transformation, cloud-first, intelligent automation, agile operations and their own ecosystem) and develop competencies to maintain their leadership. They shape the market rather than follow it.*

*"We are pleased to be recognized as a Leader by Gartner, which in our opinion is for our forward-thinking approach to implementing SIAM services, that are tailored to modern hybrid digital IT ecosystems and enhanced by a high degree of automation embedded in the services and workflows," said Karine Brunet, CEO of Capgemini's Cloud Infrastructure Services and Member of the Group Executive Committee. "We believe it reflects the dedication of our teams, the trust of our clients, and our relentless focus on innovation and delivering measurable outcomes. As businesses increasingly embrace multi-vendor environments, we remain steadfast in our mission to provide transformative solutions that drive operational excellence, agility, and success."*
